

Rivky Grinberg | Backend & AI Developer

rivky.grinberg@gmail.com | 055-6731700 | [GitHub](#)

Summary

Backend Developer with hands-on experience in full-stack development, specializing in building robust REST APIs and integrating AI-powered features into application workflows.

Experienced in leveraging LLMs and AI-assisted development tools to accelerate coding, debugging, and refactoring.

Adept at working in collaborative, team-based environments using Git.

Possesses strong problem-solving skills and a strong focus on writing clean, maintainable, and reliable code.

Professional Experience

2026 - Present | Backend Developer | Early-Stage Startup

- Develop backend services and REST APIs using ASP.NET Core (C#) in a fast-paced startup environment.
- Develop AI-powered backend features by integrating LLMs and AI APIs into core application workflows.
- Implement JWT-based authentication and authorization systems to ensure secure API access.
- Improve API performance through systematic query optimization and caching mechanisms.
- Write and maintain comprehensive Unit Tests using xUnit and Moq to improve code quality and reliability.
- Work with Docker-based development environments and automated CI/CD workflows for deployment.
- **Technologies:** ASP.NET Core, C#, PostgreSQL, Redis, Kafka, Docker, JWT, xUnit, Moq, LLM Integration

2025 | Full Stack Developer Intern | DE-PARK

- Developed a real-time, full-stack autonomous parking management system for vehicles, queues, and parking slots, including interfaces for mobile and tablet devices.
- Built robust backend services using Node.js (Express), PostgreSQL, and Sequelize, including unit testing.
- Developed responsive frontend interfaces using React.js and TypeScript, ensuring a user-friendly experience.
- Collaborated effectively within a team environment, utilizing Git/GitHub for version control and code review.
- **Technologies:** Node.js, Express, React, TypeScript, REST APIs, PostgreSQL, Sequelize, Jest, Git

Skills

AI: LLM Integration, OpenAI API, AI-assisted Development (Claude, GitHub Copilot, GPT)

Backend: ASP.NET Core (C#), Node.js (Express.js), REST APIs, .NET Core, Entity Framework

Frontend: React, Redux, Angular, TypeScript, JavaScript, HTML5, CSS3

Databases: PostgreSQL, MongoDB, SQL Server, Supabase

Testing: Unit Testing, Jest, xUnit, Moq

Tools & Technologies: Docker, Git, CI/CD Workflows, Redis, Kafka, JWT, Sequelize, Postman, System Design

Education

2023 - 2025 | Diploma in Software Engineering, MAHAT | Graduated with High Honors

Extended studies in the KamaTech Program, focusing on: Algorithms, Data Structures, and Operating Systems.

Languages

Hebrew: Native | **English:** High level.
