

Rivky Grinberg | Software Developer

r6731700@gmail.com | 055-6731700 | GitHub

Software Developer with experience in backend and full-stack development, specializing in REST APIs, backend systems, and AI-integrated features. Strong problem-solving skills and fast learning ability, with a focus on clean, maintainable code and modern technologies. Experienced in collaborative team environments.

Professional Experience

2026-Present | Backend Developer

- Develop backend services and REST APIs using **ASP.NET Core (C#)** in an early-stage startup.
- Develop AI-powered backend features by integrating **LLMs** into application workflows.
- Implement JWT-based authentication and authorization system.
- Improve API performance through query optimization and caching mechanisms.
- Work with Docker-based development environments for backend services.

Technologies: ASP.NET Core, C#, **PostgreSQL**, Redis, Kafka, Docker, JWT, LLM Integration.

2025 | Full Stack Developer Intern | DE-PARK (Autonomous Parking System)

- Developed a real-time autonomous parking management system for vehicles, queues, and parking slots, including mobile and tablet user interfaces.
- Built backend services using **Node.js** (Express), PostgreSQL and Sequelize, including testing.
- Developed responsive frontend interfaces using **React.js** and **TypeScript**
- Collaborated in a team environment using Git/GitHub for version control.

Technologies: Node.js, Express, React, TypeScript, **PostgreSQL**, Sequelize, Jest, Git.

Projects

- AI-Powered Exam Creation Platform

AI-powered web system for teachers to create, edit, manage, and export exams with AI assistance.

Technologies: Node.js, Express, React, MongoDB, OpenAI API

- Subscription Management System for Business Advertising

Designed and developed a full-stack system for business subscription and advertisement management.

Technologies: C#, .NET Core, React, Redux, SQL Server, Material-UI

Skills

Programming Languages: C#, Java, Python, JavaScript, TypeScript, C, C++

Backend: Node.js (Express.js), .NET Core

Frontend: React.js, Redux, Angular, HTML5, CSS3

Databases: PostgreSQL, MongoDB, SQL Server, Supabase

Tools: Git, GitHub, Docker, Postman, Sequelize, Entity Framework, OpenAI API

Operating Systems: Windows, Linux

Extended Studies: Algorithms & Data Structures, OS, Design Patterns, Software Architecture, System Analysis, Networks & Communication

Education

2023 - 2025 - Diploma in Software Engineering, MAHAT - Graduated with High Honors

- Extended studies in KamaTech Program, focusing: Algorithms, Data Structures, Operating Systems

Languages

Hebrew: Native | **English:** Advanced.
